AT A GLANCE

Ready in 3 seconds

ThermoJet heating reaches 93°C almost instantly — no waiting for the machine to warm up.

Intuitive LCD interface

Shot timing, grind setting and volumetric control, readable at a glance while you work.

Auto grind and dose, 30 settings

The integrated conical burr grinder delivers the right amount of coffee on demand at one touch.

54mm portafilter, 18 g dose

A professional-style basket with single and dual wall filters, plus the Razor™ trimming tool.

Showroom & Experience Center: Asmawi Building, Umm Al Sheif, Sheikh Zayed Road, Dubai, UAE
Near Equiti Metro Station | Emporium Star General Trading LLC

PRECISION, AT THREE SECONDS FROM COLD

The Barista Pro pairs barista-level control with a machine that is ready before you are. ThermoJet heating with PID control delivers water at exactly 93°C in three seconds from cold, and the LCD gives you shot timing and grind information as you work. The integrated grinder doses on demand; you tamp the puck and texture the milk yourself.

Fast enough for a weekday morning, controllable enough for a weekend.

- **Third wave specialty coffee at home**

Built around the 4 keys formula used in professional cafés: the right dose of freshly ground beans, precise temperature control, optimal water pressure and true microfoam milk for latte art.

- **ThermoJet heating, ready in three seconds**

The ThermoJet system with PID temperature control delivers water at exactly 93°C for balanced flavour, and reaches that temperature in three seconds from cold.

- **Auto grind and dose, 30 grind settings**

One touch runs the integrated precision conical burr grinder with dose control, delivering the right amount of freshly ground coffee straight into the basket.

- **54mm portafilter, 18 g dose**

A professional-style 54mm stainless steel portafilter with single and dual wall baskets builds full-bodied coffee with rich and complex flavour.

- **Pre-infusion, 9 bar extraction and 130°C steam**

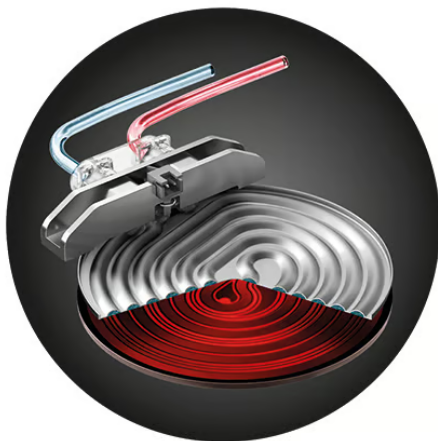

Low pressure pre-infusion opens the puck evenly before the 15 bar Italian pump delivers a 9 bar extraction, while powerful 130°C steam textures silky microfoam quickly.

Ready before the kettle would be

Three seconds from cold to extraction temperature. Try one against the clock at our Sheikh Zayed Road showroom.

SPEED, AND THE INFORMATION TO USE IT

ThermoJet, three seconds

PID-controlled water at exactly 93°C from cold, in about the time it takes to lock in the portafilter.

An interface that tells you something

Shot timing, grind setting and volumetric control on screen — one shot, two shots, or manual.

TECHNICAL SPECIFICATIONS

Model number	SES878BSS4GEU1
Finish	Brushed Stainless Steel
Heating system	ThermoJet with PID, ready in 3 seconds
Brew temperature	93°C
Pump	15 bar Italian pump, 9 bar extraction
Pre-infusion	Low pressure, before extraction
Grinder	Integrated conical burr, 30 settings
Dosing	Auto grind and dose, manual tamping
